Kevin Gautier KAYISIRE

Software Developer

EXPERIENCE

Awesomity Lab, Rwanda
Software Developer
May 2018 – Present

Awesomity Lab is a software development company that specialize in using the power of technology to build mobile applications and web platforms for various businesses and organizations. As software developer, my work line is in developing good quality web applications using cutting-edge technologies and ensuring their security against various online attacks and breaches.

ALU School of Business, Rwanda
Graphic Designer & Marketing Intern
Dec 2017 – May 2018

Designed marketing collaterals for the MBA class of 2019 intake, which contributed to their applications raising above 50% of the previous application. In addition, I managed their social media portals.

RONKOS, Rwanda
Graphic Designer
Mar 2017 – Jun 2017

Designed marketing advertisements including digital graphics and brochures which contributed in raising above 80% of the total company's followers through social media.

Go Ltd, Rwanda
Junior Developer
Jul 2016 – Sep 2016

Built a Client Relation Management software that is used to record and calculate income generated from the harvest of around 200 farmers that are monitored by the company.

DMM.HeHe, Rwanda
Fellow
Feb 2016 – Jun 2016

Lead software developer in a team of 9, which built an online education platform used by high school and college students across Kigali to share resources and contents in between themselves.

BIO

A highly motivated and hardworking individual, who is currently pursuing a bachelor's degree at ALU Rwanda. I'm a software developer with 6 years of experience and with an emphasis in web development.
